Simplify Your Ansible Adoption with ConRes

The ConRes Ansible Jumpstart Program helps you overcome the challenges customers often face when adopting Ansible as an automation platform. Through on-site training and technical guidance, we will educate your automation team on Ansible basics and best practices as well as work with you to deploy your first Ansible playbook.

How the program prepares you to use Ansible:

- **2-3 weeks of on-site guidance from ConRes**

- **Best-practice education and training**

- **Creation of development-to-production pipeline**

- **Customized, fully tested playbooks**

Why ConRes

Demo the Solutions
Demo Ansible automation features and functionality using ConRes Demo/POC labs.

Data Center Expertise
Our skilled engineers have decades of experience within data centers.

Apex Partner
We have the experience to help your team deploy your first Ansible playbook.
